Update

Thank you to those who responded so quickly to our first missionary newsletter. We are very blessed to have you on our team. Your support means more than you can possibly know.

Here's a summary for the month of February:

- Fifteen people responded to our first newsletter.
- Three people partnered with us by giving one-time financial contributions.
- Twelve ministry partners are supporting us for a total of \$520/month. We are already one sixth of the way to our full monthly support!
- We received \$1,330 for start-up equipment funds. We were able to purchase our first camera body and lens!
- Our house went on the market for a short sale and the first family to look at our home on the very first day made an offer! On March 2nd the bank sent an appraiser, so it looks like the paperwork is moving forward quickly.

LUMIX GH2
Light, fast & Hi Def!

What Do We Need?

If the current average pledge per person is typical, we need about 60 more ministry partners to join our team with monthly support.

Additionally, we need \$12,000 to complete our production equipment. We also need \$12,000 for travel and operations in 2013.

Please Pray

The next mission-critical equipment need is for a souped-up MacBook Pro, software and media storage that will enable us to prepare for editing HD video in the field. This quality of equipment doesn't come cheap. Please pray for the Lord to provide \$4,500.

Adventure!

"We hobbits are plain, quiet creatures. Adventures make one late for dinner." (Bilbo Baggins)

In a very un-hobbitlike way, we are on the road to new adventures. We are more convinced than ever that this is the Lord's doing.

But we also feel a sense of loss. We will soon say goodbye to our home of sixteen years. And, less than six months from now, we will step down from the pastoral role we have filled at Cornerstone for twenty years.

The goodbyes are a bit harder than we anticipated... but we haven't yet been late for dinner!

Our Mission

To Serve Missionaries

We are called to produce short "films" (and supplemental print & lesson materials) to assist missionaries with making and maintaining vital heart connections with their partners "back home."

We Believe That:

- Missionaries have stories that need to be told.
- True partnership happens when there is a heart-felt connection between missionary and supporter.
- Video, when done right, gives viewers an "experience" with the missionary that can help build this heart-felt connection.
- Video plus custom, personalized lessons can make that connection inter-generational.
